I have the honor to forward the enclosed for submission to Government for orders as to whether the present system of visiting by the Hospital Assistant should be continued or a dispensary established at Bevur. Probably if a dispensary were established the attendance would be larger than 16 per diem as the people would then know of its existence there and be sure of getting medical aid whenever they wanted it and come for it.

General No. 105 } 1892-93
No.

In returning the enclosures received with Govt: Proceedings No. 5596-7 L. 687 dt 8th June 1892, has the honor to state that the question of establishing a dispensary at Birur was duly discussed at the Birur Municipal meeting convened at Birur on the 13th July 1892 and at the District Local Fund meeting held on the 20th instant.

The members of

5

the Birur Municipality have agreed that the present system of bi-weekly visits by the Kadur Hospital Assistant may be continued for some time to come, and that a separate dispensary is not necessary for the present.

The L. F. Board after considering all the points detailed in Dr. Fernandez' letter were unanimously of opinion that a dispensary at Ajjampur is very desirable.

Copies of resolutions of the L. F. Board and of the Birur Municipality together with copies of correspondence about the ~~Ajjampur~~ Ajjampur Dispensary are submitted for information.

The Senior Surgeon and
Sanitary Commissioner
Bangalore.

Dated 12-8-1892

№ 754 Enc 1.

Sir.

In forwarding a petition from the people of Ajjampur, praying for the Establishment of a Dispensary in their Town, I have the honor to state that I visited the place in Company with Mr. Govinda Charlu, the Executive Engineer, last month when I was on Circuit and find that it is a rising and important town, not only financially but in a medical point of View.

The town is in a hollow and has between 5 and 600 houses, with a population of four thousands.

It has a Municipality of its own and is a Railway Station.

It is the first place in this District, where Cholera breaks out and then spreads all round. The disease visits the place every year for the last 3 or 4 years.

The inhabitants are willing to pay a sum of Rs 300/- or more, towards the dispensary.

There is a nice spot, opposite the Travellers' Bungalow (measuring about 350 × 130 ft) available where the permanent building could be located.

Ajjampur is about 14 ~ miles distant from the nearest dispensary i, e, Kadur or Tarikere. The villages surrounding Ajjampur as given in the margin are also very important:—

The sanitation and drainage of

Sivane.
Hirenallur
Anthergutta
Bukkambudi.
Chiknallur.
Thamatadahalli.
Begur
Tavarekere.
Kudlur
Javoor.
Basoor.
Gadihalli.
Asandi -
Chillanpalli -
Bagavalli -
Sokke -
Hosur -

the place, are in a very neglected state, and if a Dispensary is established there, the Hospital Assistant will be able to look after these things.

The Executive Engineer brought to my notice that opening up of communications contemplated from Ajjampur Northward to Bukkambudi and Chennagiri, and Southward to Pura, Yagati &c, and a road already opened out between Bukkambudi and Shivane Railway Station, will materially help in raising the importance, Trade and the weekly gatherings of the place and incline many villagers and travellers to reap the benefits of an institution, so conveniently and centrically situated.

Also he considers a Dispensary here much needed on account of wadder gangs and other labourers, that frequently camp at Ajjampur for Railway work and large irrigation works round the place going on and to go on, of which latter he mentions Kuksamudra Tank project as notable.

It is a noteworthy fact — that the recent cholera began with the aforesaid wadder gangs.
